

# IF STATEMENTS

AN **IF** STATEMENT CHECKS TO SEE IF A CONDITION IS TRUE OR FALSE. IT WILL CARRY OUT INSTRUCTIONS DEPENDING ON THE CONDITION.

```
if food == 'junk food':  
    print("mmm.. Keep it coming")  
else:  
    print("I can't eat this!!!")
```

MMM. KEEP  
IT COMING

I CAN'T EAT  
THIS!!!
